Navigation Bar

Buttons (from left to right):

Back: go back to previous page. Default Me page and Friends list page do not have this button.

Display Picture of User: go back to Me page (user profile page).

Friends' List button: go to list of friends

Camera: QR Code Scanner (same as the one in Me page), allows faster access for users.
Search Button: search friends' profiles

Refresh Button: show notifications

Navigation Button: Help, Settings. (May have more later on)
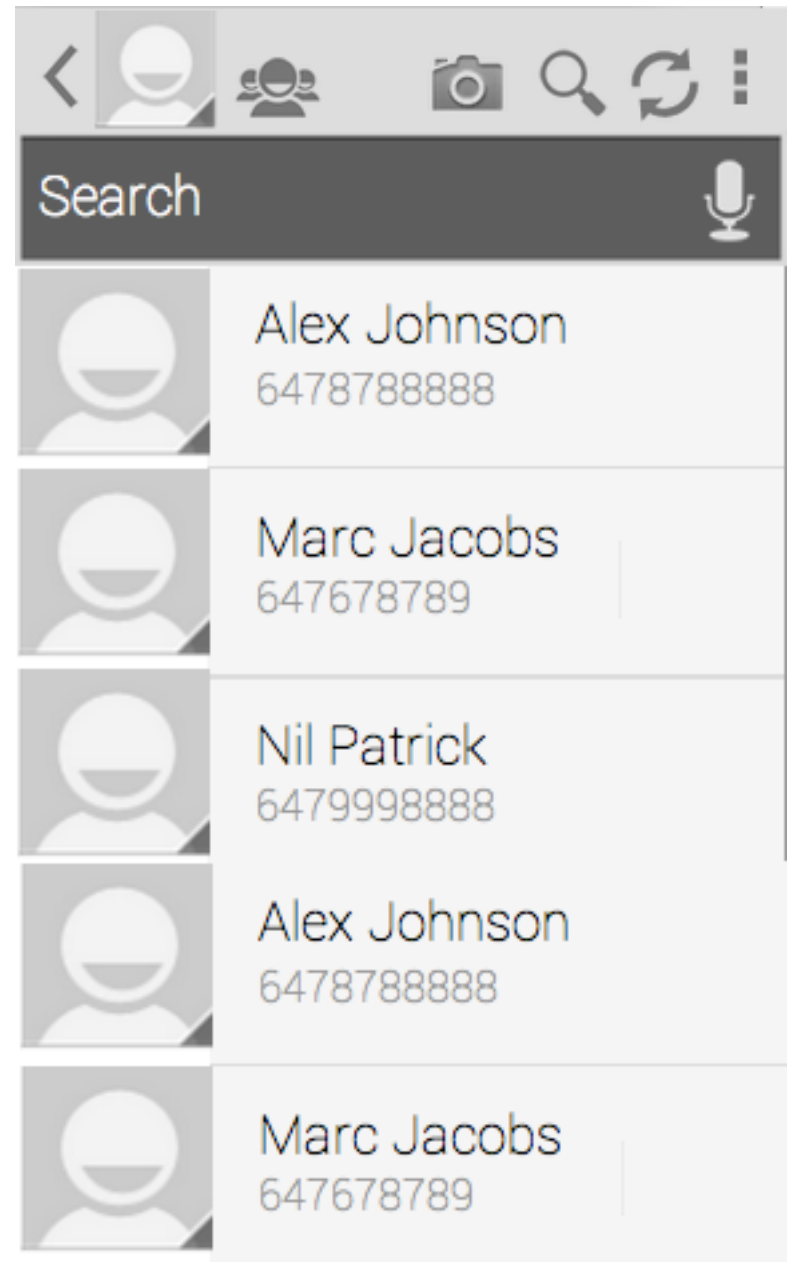

My Page

- My profile page.
- Scan: launch new activity to start the camera
- Send: launch new fragment that shows the following options:
  - Touch to Send: NFC
 - Share QR Codes: Text or Social Networks (to be discussed)

Friends List
List of friends ordered alphabetically with friends' names and display pictures.
Search bar: allows users to find friend's profile faster

Friend

- Just keep it simple, only has the social networks.

Setting

- Profile: Used to log in and grant accesses to all social networks (services)
- Account:
    - Register: Register to be a Qard user
    - Default Send Setting: default social networks that would be sent thru NFC or QR codes
- Sync with Address Book: two way sync with address book in the device. (Do we need to allow users to select specific contacts that they want to send)
- About: About the App
- Help: Help manu (discuss later)
- Notification: Notification settings, enable/disable
